DETAILED ACTION

This fifth Office Action is in response to Applicant's Amendment received in the Office on August 26, 2004 in this case.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David L. Ray on November 10, 2004.

The application has been amended as follows:

In claim 1, line 1, "for" has been deleted;
line 2, after "fan", --to a tank-- has been inserted; and
"from a tank" has been changed to --from the tank--.

Allowable Subject Matter

Claims 17-20 are allowed over the prior art of record.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Regarding claims 17-21, the prior art of record does not teach, in combination with the other features of claim 17, a tank, a flange, a top plate for temporarily connecting a flange to a exhaust fan, a bottom plate for temporarily connecting a flange to a manway, a hollow sleeve having a cylindrical wall terminating in two generally circular ends, one of the two ends being connected to the periphery of the opening in the bottom plate, and the other of the two ends being connected to the top plate at the periphery of the opening in the top plate, the sleeve having at least one unobstructed opening in the wall between the exhaust fan and the tank for temporary receipt of hoses and electrical wires.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
